Working with Templates. Why? How?

Facilitated by Christiane Amici Raboud

Templates are a way to connect participants with visual representation. They can also help organise the result of group work for more clear and synthetic answers. Let's see how they can be applied, why they are useful and when to use them (or not!)

Take away for Participants:

- ✓ **Basic knowledge of use of templates for presenting a programme and for restitution of group work**
- ✓ **Experiment with the drawing of own templates**
- ✓ **Information on already made templates (printed)**
- ✓ **Supports the development of the following IAF Competencies:**
Participatory environment, guidance to useful outcomes, professional attitude
